---

## PROFESSIONAL SUMMARY

I am a Computer Science student; I am developing a growing interest in using technology to solve real-life problems. Through academic tasks and practical projects, I have gained experience in applying theory to real-life business problems. My education philosophy highlights practical experience, group learning, and technical and strategic thinking development. I am currently seeking an internship to further my professional growth.

---

## EDUCATION

Student at computer science | Misr Higher Institute for commerce and Technology

Graduation: 2027

---

## EXPERIENCE

- **Intern at digital training center in Mansura university**  
06 August 2024 - 24 November 2024
    - Built full web apps using HTML, CSS, JavaScript, and React.js.
    - Gained direct experience with APIs, databases, and Git.
    - Completed 108 hours of training in full stack development.
  
  - **NTI (National Telecommunication Institute) — Full Stack Web Development Training**  
31 August 2025 – 25 September 2025
    - Completed 120 hours of intensive training in Full Stack Web Development.
    - Focused on React.js (Frontend) and Laravel (PHP Framework) (Backend).
    - Gained hands-on experience in building and deploying full-stack applications.
    - Covered both frontend design and backend API development with database integration.
-

## PROJECTS

- **Popflix – Full Stack Movie Web App**
    - Developed a full stack movie platform inspired by streaming apps.
    - Frontend: React.js with responsive UI, movie categories, details page, search, filtering.
    - Backend: Laravel API for authentication (login/register), user profiles, and favorites system.
    - Integrated with TMDB API to fetch real-time movie data.
    - Tech Stack: React.js, Bootstrap, Laravel (PHP), TMDB API.
    - Live Demo: <https://popflix-ff5ab.web.app/>
  - **Portfolio Website – Full Stack**
    - Personal portfolio showcasing projects, skills, and contact form.
    - Includes an admin dashboard (Laravel) to manage content dynamically.
    - Designed with responsive UI and smooth animations.
    - Tech Stack: React.js (Frontend), Laravel (Backend).
    - Live Portfolio: <https://portfolio-88fc5.web.app/>
- 

## TECHNICAL SKILLS

- Front-End Development: HTML, CSS, Bootstrap, Tailwind, JavaScript, TypeScript, React, Next
  - Back-End Development: PHP, Laravel
  - Databases: MySQL
  - Version Control: Git, GitHub
  - API Integration: RESTful APIs (Laravel & external APIs)
  - Deployment: Experience with multiple hosting platforms
  - Tools & Environments: Visual Studio Code, Postman, NPM
- 

## SOFT SKILLS

- Problem Solving | Self-Learning | Teamwork | Time Management | Adaptability
- 

## LANGUAGES

English: (B1) level | Arabic: Native speaker

---

## AREAS OF INTEREST

Full Stack Development | RESTful APIs | MySQL Databases | Web Deployment
