

Zeyad Hatem EL-BELTAGY

Front End Developer

zeyadhatemsabry@gmail.com • 01112079745 • Mansoura, Egypt

[LinkedIn](#) • [Portfolio](#) • [GitHub](#)

PROFESSIONAL SUMMARY

A front-end developer and computer science student with practical experience building responsive, user-friendly, and precisely designed web applications in collaboration with UX design teams. Experienced in refactoring and optimizing legacy codebases to improve maintainability and performance. Possesses strong debugging and quality assurance skills, and collaborates closely with QA teams using tools such as Sanity to track and validate bugs. Demonstrates excellent communication and teamwork skills.

Engineering: Git, GitHub, GitFlow, Postman, APIDog, Figma, Vitest

Advanced: Web Performance, SSR/SSG, Caching, Lazy Loading, Complex Application Architecture

AI Skills: Prompt Engineering, Claude

Projects

Popflix - Movie Web App • [Live Demo](#) • [GitHub](#)

A responsive movie web application built with React.js, Next.js, and TypeScript, featuring movie categories, search, advanced filtering, movie details, cast information, and production company pages. The application uses Next.js Cache Components to improve rendering performance and efficiently handle dynamic movie data.

WorkFlow - Task Manager • [Live Demo](#) • [GitHub](#)

A responsive task management web application for managing projects and tasks, featuring Zustand for state management and React Hook Form with Zod for form handling and validation. Includes project and task tracking, progress reports, team management, and an Activity page for tracking user actions and system changes.

Portfolio - Website • [Live Demo](#) • [GitHub](#)

A responsive personal portfolio website showcasing projects, skills, experience, and contact information, with smooth animations and English/Arabic localization. Built with Next.js, TypeScript, Tailwind CSS, next-intl, Zustand, and next-themes, using SSR and SSG for optimized rendering and performance.
